An Isolation Problem.

~~There~~ There has been a huge social problem in the town Zarinsk. It held this place in anxiety and horror. "What is it?" - you may ask. Well, it's lack of entertainment.

Due to the survey our community held in 2016, about 67% of people go out of town just to shop and watch a movie. This data leads us to the following question: "Why there is no cinema in such beautiful and marvellous place?" To answer it we asked the people from local shops.

"There has always been some lack of entertainment places..." - says a fourteen years old Veronica. "But when me and my little brother Robert go to school every early day, in the morning we see the silver snow that covers benches and we enjoy the nature of our hometown."

As it turns out, people here don't know what goods of civilization exist. It's like somehow they've been isolated and refuse to move forward to accepting the reality.

People all around the world need to know about this place, where people still don't know what a mall is. To decide what we need to do to help them we need to inform everyone. (~195)
